

Day 5 assignment

1. Properties of Set and tuples

Set :

- Unordered elements
- Mutable values
- No duplicate values
- {} bracket

Tuple :

- ordered elements
- Immutable values
- Duplicate values can be present
- () bracket

Day_5_assignment.py U X

Assignment > Day_5_assignment.py > ...

```
1 g = {12,18,19,20,21,"hello"}
2 print("The set is ---->",g)
3
4 # add()
5 g.add(100)
6 print("After add() ---->",g)
7
8 # update()
9 g.update({22,25})
10 print("After update() ---->",g)
11
12 # remove()
13 g.remove("hello")
14 print("After remove() ---->",g)
```
